

Supporting older people's independence: webinar 17th July 2024

Thank you again for attending our webinar and sharing your ideas. It was inspiring to learn about the range of fantastic interventions, proposal ideas, and organisations dedicated to supporting older people's independence. For those who have given us permission to share their contact information, we have compiled a list of registered attendees. We have also attached the information regarding their interests and projects provided in the webinar chat (Note: the information is as submitted, especially the names/email addresses, i.e. we haven't double-checked them).

Kathryn Loughnan	kathryn.loughnan@helpandcare.org.uk	Help & Care	Director of Partnerships, Research and Influence	At Help & Care we promote dignity and independence for people and communities across South-Central England from our base in Dorset, empowering people and communities to live the lives they choose. Help & Care was established in the mid-1980s when there was public concern about pensioner poverty and isolation. Over the past 39 years we have devised ways to enable people to live independent lives for as long as possible by overcoming obstacles – poor physical health, disability, mental ill health, being a carer and difficulty in expressing views to those in authority. Keen to collaborate. Have two services on Isle of Wight, Healthwatch and User Led Organisation, two great teams of colleagues working there so happy to talk further. In a former role I developed an intergenerational social enterprise called digisteps which focussed on digital equity. Happy to share experience, won Big Society Award and more.
